# Company Profile

We are pleased to introduce ourselves as a manufacturer and exporters of premium quality Work Gloves, Casual Gloves, Garments Gloves, Gloves, Sports Gloves.

**ZAMJAS GLOVES** work for the satisfaction of the respectable customers. A combination of traditional manufacturing methods & modern technology helps us to produce all the products in high quality, in time & at very affordable price. We dedicate our success to our fair and honest policies, to our spirit of innovation, to the closest relationship that we establish with our clients and to our firm adherence to total professionalism in all areas of business. Our customers and the members of our team are our best asset and we do our best to safeguard their interest.

Our biggest advantage is the manufacturing of every component at the same facility. We do not outsource any handles, blank tips, etc. This enables us to maintain the highest level of quality control.

**Quality:** Our leather work gloves are crafted with exceptional attention to detail, ensuring the highest quality standards in every pair.

**Product Range:** From general-purpose gloves to specialized designs, our extensive product range covers a wide spectrum of industries, providing tailored solutions for various work environments.

**Support:** Our knowledgeable and friendly support team is committed to assisting you with any inquiries, offering prompt and reliable assistance to ensure your needs are met.

**Cost:** We strive to provide cost-effective solutions without compromising on quality, offering competitive pricing that aligns with your budget requirements.

**Transport:** With a well-established logistics network, we ensure efficient and timely transport of our leather work gloves to your desired location, minimizing delays and ensuring prompt delivery.

**Hand Protection International** is thankful to all of its worthy customers for their trust and appreciation of quality and services that **ZAMJAS GLOVES** has been providing them and will continue to do in future.

# LEATHER

**COWHIDE** : Most popular and common due to its durability and abrasion resistance. Provides good insulation against heat with high puncture resistance.

**DEER & ELK** : Softest and most comfortable with high flexibility and dexterity. Highest durability and longest lasting. Excellent insulation protection against cold.

**SHEEP/LAMBSKIN** : Very popular choice for gloves where comfort and soft feel is needed. Soft and delicate skin and have less resistance than goatskin.

**GOATSKIN** : Very soft feel with high abrasion and water resistance due to its high lanolin content. High flexibility and dexterity.

## LEATHER TYPES :

**Grain** : The smooth outside top layer of the hide.

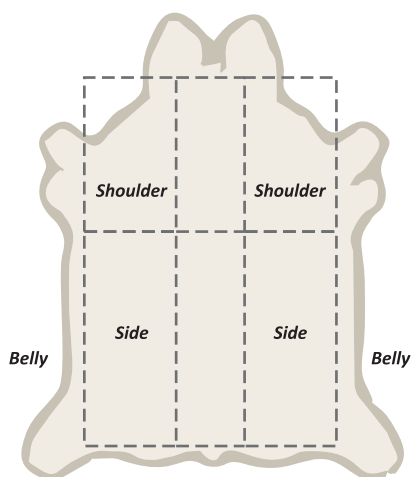

**Split** : The rougher inside layer of the hide when top layer is removed.

## CUTS OF LEATHER :

**Side**: Provides most durable and longest lasting leather due to density of the fibers.

**Shoulder**: More economical and less durable than side leather due to increased movement in this area leading to less density in the fibers.

**Belly**: Most economical leather that is rarely used due to its lack of consistency and durability.
